

Flying_03: In Flight (*Duration: 00:30*)

Hi folks. We're now cruising at thirty thousand feet and I just turned off the "Fasten seatbelt" sign. I would like to remind you that, for your comfort, safety and convenience, you should keep your seatbelts fastened at all times. I'm hoping to make up some of the lost time, and I'll be reporting on our progress later in the flight. Our flight attendants will be serving dinner in a moment. Thank you.
