

Itineraries (Duration: 01:07)

- What are we doing on June first?
- Er, we're going to Eureka in the morning, then cruising the Pacific in the afternoon. Why?
- Well, it's my birthday. That's all.
- Your birthday? Then your employment record's wrong. Look, I have it here.
- No, it's right.
- But it says your birthday's in January. January 6th. I remember because my sister's birthday is January 7th.
- Ah, sorry, yes. My mistake. 1/6/81 is British style – first June, 1981. In America, 1/6/81 is January 6th.
- Of course, you put day/month/year.
- And you put month/day/year. I always make a mistake with that.
- June first. OK, Josey. We're going to have to have a party for you on Friday.
