

Tips on how to make your life more interesting

Recreate the fun of a visit to a public swimming pool in your own home by filling the bath with cold water, adding two bottles of bleach, then urinating into it, before jumping in.

Greengrocers. Why throw away old, unsold fruit and veg? Simply label it "Organic Produce" and charge twice the usual price.

When buying fruit by the pound, buy grapes instead of apples. Apples are much heavier.

Beat bicycle theft by towing a horse box behind your bike. When you stop, simply padlock the cycle securely inside the horse box.

Imagine you're in São Paulo by simply sitting in your car all day with the engine running, occasionally honking your horn and never actually going anywhere.

Beat the credit card companies at their own game. Run up a massive bill on your credit cards and then kill yourself before your statement arrives, thus avoiding repayment.

Truck drivers. Make motorway driving more interesting by waiting until a car is overtaking you before pulling out from the inside lane.

Bus drivers. Pretend you're an airline pilot by wedging your accelerator pedal down with a heavy book, securing the steering wheel with some old rope, and then strolling back along the bus chatting casually to the passengers.

When reading a book try tearing out the pages as you read them. This saves the expense of buying a bookmark.

Save money on doorbell batteries by removing them and simply going to the door every two minutes to see if anyone is there.

Save electricity by turning off all the lights in your house and walking around wearing a miner's hat.

Too fat? Lose weight quickly by eating raw pork or rancid tuna. The food poisoning and diarrhea will cause you to lose many kilos in only a few days.

Parked illegally? Avoid parking tickets by leaving your windscreen wipers turned on.

Make shopkeepers feel like criminals by carefully checking their change and holding bank notes up to the light before accepting them.

Computer Technical Support

Support: What kind of computer do you have?

Customer: A white one.

Support: Click on 'My computer' on the left of the screen.

Customer: Your left or my left?

Customer: Good afternoon. I can't print. Every time I try, the computer says "Can't find printer". I lifted the printer in front of the monitor, but the computer still says it can't find it.

Customer: I have problems printing in red.

Support: Do you have a color printer?

Customer: Aaaah...thank you.

Support: What's on your monitor now, Miss?

Customer: A teddy bear that my boyfriend bought for me.

Customer: My keyboard is not working anymore.

Support: Is it attached to the computer?

Customer: I don't know. Support: Pick up your keyboard and walk 10 steps back.

Customer: OK.

Support: Did the keyboard go with you?

Customer: Yes.

Support: That means the keyboard is not attached. Is there another keyboard?

Customer: Yes, there's another one here. Ah, that one works!

Customer: I can't connect to the internet.

Support: Are you sure that you used the correct password?

Customer: Yes, I'm sure. I saw my colleague type it.

Support: Can you tell me what the password was?

Customer: Five asterisks.

Customer: I have a big problem. A friend installed a screen saver for me but every time I move the mouse, it disappears.

Why?

- 1) Why do drugstores make sick people walk all the way to the back of the store to get their prescriptions while healthy people can buy cigarettes at the front?
- 2) Why do Americans order double cheeseburgers, large fries, and a *diet* coke?
- 3) Why do we leave cars worth thousands of pounds in the driveway and put our useless junk in the garage?
- 4) Why do they have drive-thru ATM machines with Braille lettering?
- 5) Why does the sun lighten our hair, but darken our skin?
- 6) Why can't women put on mascara with their mouth closed?
- 7) Why don't you ever see the headline "*Psychic Wins Lottery*"?
- 8) Why is 'abbreviation' a long word?
- 9) Why do doctors "*practice*"? Don't they know it yet?
- 10) Why is lemon juice made with artificial flavor, and dishwashing liquid made with real lemons?
- 11) Why isn't there mouse-flavored cat food, or cat-flavored dog food?
- 12) Why didn't Noah kill the two mosquitoes?
- 13) Why do they sterilize the needle for lethal injections?
- 14) If black boxes are indestructible, why don't they make the whole airplane from the same stuff?
- 15) If flying is so safe, why do we arrive at "*the terminal*"?
